The careful observer of pregressive events connected with the unhappy condition of our country, cannot have overlooked the reaction now going on in the political sentiment of the Northern States. A large and rapidly increasing number of the people in that section have become awakened to the true object and intention of the Administration in proseeuting the war against the South. They are beginning to ask themselves what they are to gain by the prosecution of this bloody war? and when they look around and see the wides penalty of civil disabilities, from aiding the Hopkins county — (States Rights gain 500.) commerce and trade obstructed, their only means of support eut off, and hear at every turn the wailing of widows and orphans made by the relentless hand of war, they rations of Congress that the war was com- only these two propositions, now cardinal menced and is continued solely for maintaining the supremacy of the Constitution. Sir, he has undertaken to give us information of the state of the Union, as the Constitution requires him to Union, as the Constitution requires him to do; and it was his duty, as an honest executive, to make that information full, impartial, and complete, instead of spreading before using the constitution of his even to the constitution and the constitution are constitution and the constitutio a labored and lawyerly vindication of his own by a gentleman from Tennessee, [Mr. Ethe tated us into a terrible and bloody revolution. all these propositions, coming thus from the He admits the fact; he admits that, to-day, we He admits the fact: he admits that, to-day, we are in the midst of a general CIVIL WAR, not by the almost united vote of the Republican

Sir, it has been the misfortune of the President from the beginning that he has totally and wholly under estimated the magnitude fied, and for which every Southern Senator and character of the revolution with which he had to deal, or surely he never would have ventured upon the wicked and hazardous experiment of calling thirty million of people to arms among themselves without the counsel and authority of Congress. But when at last he found himself hemmed in by the revolution, and this city in danger, as he declares, and waked up thus, as the proclamation of the 15th of April proves him to have waked up, believed Congress would undertake to doto the reality and significance of the movement, why did he not forthwith assemble Congress, and throw himself upon the wisdoin and patriotism of the representatives of the States and of the people, instead of usurping powers which the Constitution has expressly conferred upon us? ay, sir, and powers which Congress had but a little while before repeatedly and emphatically refused to exercise, or to permit him to exercise. But I shall recur to this point again.

Sir, the President, in this message, has nndertaken also to give us a summary of the eauses which have led to this present revolu-He has made out a case—he might, in er case—against the secessionists and dis-unionists of the South. All this, sir, is very well as far as it goes. But the President does not go back far enough, nor in the right direction. He forgets the still stronger case against the abolitionists and disunionists of the North and West. He omits to tell us that secession and disunion had a New England origin, and began in Massachusetts in 1801 at the time of the Louisiana purchase; w re revived by the Hartford Convention in 1814, and culminated, during the war with Great Britain, in sending commissioners to Washington to settle the terms for a peaceable separation of New England from the other States of the Union. He forgets to remind us and the country, that this present revolution began forty years ago in the vehement, persistent, offensive, most irritating and unprovoked agitation of the SLAVERY QUESTION in the North and West, from the time of the Missouri controversy, with some short intervals, down to the present hour.

Sir, it is an ancient and wise practice of the another Senator from Kentucky, [Mr. Crit-

Republican party in either House. The Adams or Corwin amendment, so-called, reported from the Committee of Thirty-three, and the only substantive amendent proposed from the Republican side, was but a bare promise that Congress should never be authorized to do what no sane man ever abolish slavery in the States where it exists and yet even this proposition, moderate as was, and for which every Southern member present voted, except one, was carried through and tedious delay, and with the utmost diffi-culty—sixty-five Republican members, with the resolute and determined gentleman Penusylvania, [Mr. Hickman,] at their head, having voted against it and fought against it

And not this only, but, as a part of the his tory of the late session, let me remind you that bills were introduced into this House proposing to abolish and close up certain Southern ports of entry; to authorize the President to blockake the Southern coast; and to call out the militia and accept the services of volunteers, not for three months merely but without any limit as to either numbers or time, for the very purpose of enforcing the laws, collecting the revenue, and protecting the public property; and were pressed vehemently and earnestly in this House, prior to the arrival of the President in this city, and were then, though seven States had seceded and et up a Government of their own, voted down, postponed, thrust aside, or in some other way disposed of, sometimes by large majorities in this House, till at last Congress adourned without any action at all. then seemed to be the policy of all parties.

Thus, sir, the ease stood at twelve o'clock on the 4th of March last, when, from the eastern portico of this Capitol, and in the presence of twenty thousand of his countrynen, but enveloped in a crowd of soldier which no other American President ever saw, Abraham Lincoln took the oath of office to support the Constitution, and delivered his inaugural—a message, I regret to say, not written in the direct and straightforward lanand the Whig party, too, and its predeces-sors, have been guilty for sixty years of un guage which becomes an American President and an American Statesman, and which was expected from the plain, blunt, honest man of the Northwest, but with the forked tongu and crocked counsel of the New York politician, leaving thirty million people in violent and long-continued denunciation of whether it meant peace or war. Dr. MERWIN'S FEVER & AGUE PILLS.

Fir the permanent cure of Fever and Ague Fever Congestive Chills, Remittent Fever, Bilious Fever, Dumb Ague, and all periodical diseases that have their origin in the miasmatic effluvia arising from decayed vegetation.

THESE "Pills" never fail to cure aff of the above named Fevers, and what is hetter, they also act as a preventive, if taken occasionally, or daily, while exposed to the infection. Hence the old dage, "An onne of presentive is worth a pound of cure." DR. MERWIN'S "Fever and Ague Pills" DIFFEE FROM ALL OTHER Chill Medicines, in the following particulars: ulars: 1s1. They never fail to perform a speedy and permanent cure.
2d. They are recommended only for one class of

diseases.
3d. They are agreeable and convenient to take,
41h. They contain no poisobous minerals, being
purely vegetable.
5th. They do not impair the organic functions of
the stomach or any part of the system.
6th. They require no other medicine to prepare the
system for their reception, or atterwards to allay
printation.

system for their reception, or atterwards to allay rivitation.

7th. They are not a northern "eatch-penny humbug," but are prepared by gentlemen that were horn, repred and educated under the benign influence of southern institutions.

IF REMEMBER when you purchase these Pills, that you are not returned and form the ting means for "Yankee Emigrant Aid Societies," or Sharp's rifles and howio knives, for "Bleeding Kansas," as you many times have done, in huying northern articles.

We wish all to distinctly understand that this is a Southern Memeine, prepared from the simple plants that grow in our Wood-lands, on our Riverbunks, Bayous, and Lukes.

IF 24s a special merit, we wish to call attention to the fact, that in using this Medicine you only take a few Pills. Is not this preferable to swallowing a pint of nanceous mixture which, at best, can only produce the same result!

Price \$1 per Bottle.

ONE DOLLAR and four 3 cent postage stamps, inclosed to the Proprietors or to almost any Dealer in Medicines in the Southern States, will insure a hotle of Pills by return mail.

Proclamation of the Governor.

Whereas, numerous applications have been time to me from many good citizens of this Con monwealth, praying me to issue a proclamat on forbidding the march of any forces of this or any other State or States over our soil, to make an apprehended attack upon the Fereral forces at Cairo, in Illimois, or to disturb any otherwise the peaceful attitude of Kentucky with reference to the deplorable war now waging between the United States and the Confederate States. And whereas, numerons applications from like good citizens of this Commonwealth have also been made to me, praying me to issue a proclamation forbidding the occupation of any post or place, or the murch over our sacred soil by any force of the United States for any purpose And whereas, it is made fully evident, be every indication of public sentiment, that it is the determined purpose of the good people of Kentucky to inaintain, with courageou proposing or intending no invasion or ag-gression towards any other State or States. forbidding the quartering of troops upon her soil by either of the hostile sections, but simply standing aloof from an annatural, horric nd lamentable strife, for the existense of which Kentucky, neither by thought, word nor act, is in any wise responsible. whereas, the policy thus recommended by so many of my fellow-citizers of all political leadings, is, in my judgment, wise, peaceful, safe, and honorable, and the most likely to preserve peace and amity between the neight loring bordeying States on both shores of th Ohio river, and protect Kentucky, generally, from the rayages of a deplocable war. And whereas, the arms distributed to the "State Gnard," composed as it is of gentlement equally conscientions and honest, who entertain the opinions of both parties, are not t he used against the Federal Government nor the Unit levate Scales but to resist and prevent en roachments in on her soil, her rights, he honor, and her sovereignty by either of the lelligerent parties, and to preserve the prace, safety, prosperity, and happiness and strict neutrality of her people, in the hope she may soon lave an opportunity to become a suc-cessful mediator between their; and in order to remove the unfounded distrust and suspi-ients of purposes to force Kentucky of it of the Union, at the point of the bayor et—which may have been strongly and wickedly engendered in the public mand in regard to my own posi-

nion and that of the "State Guard,"
Now, therefore, I, BERLAH MAGOFFIN,
Governor of the Commonwealth of Kentucky, and Commander-in-Chief of all her military forces, on land or water, have issued the my precount on, hereby notifying and warning all other States, whether separate or nuited, and especially the "United States and the "Confederate States," that I solemnly forbid any movement upon the soil of Kenticky or the occupation of any port, post, or place whatever within the lawful boundary and jurisdiction of this State, by any of the forces under the orders of the States aforesaid, for any purpose whatever, until authorized by invitation or permission of the Leg-islative and Executive authorities of this State previously granted. I also hereby espec ally and solemnly forlid all good citizens of this Commonwealth, whether incorporated in the State Guard or otherwise, making any warlike or hostile demonstrations whatever against any of the authorities aforesaid, carnestly requesting all citizens, civil and military, to be obedient hereto; to be obedient to the laws and lawful orders of both the civil and military authorities; to remain when off military duty quietly and peaceably at their homes pursi ing their wonted lawful avocations; to refrain all words and acts likely to engende hot blood and provoke collision; to jursu such a line of wise conduct as will promote peace and tranquility, and a sense of safety and security, and thus keep far away from our beloved land and people the deplorable ca-lamities of invasion, but at the same time earnestly counseling my fellow-citizens of Ken-BROWN'S "Beneficial when compelled to speak, uffering from Cold."
